

U.S. Chamber of Commerce Pandemic Flu Guide Receives Approval from Occ Doc in a Box!

Brian D. Harrison MD

Sept. 22, 2009

You may feel swamped by "flu news." If you have been searching for useful business information about seasonal flu and novel H1N1 ("swine") flu, I recommend this document, released Sept. 18. It includes a list of 10 action items for business, beginning on page 8 of 16, that you'll find especially to-the-point and practical. You can download it here:
http://www.uschamber.com/issues/index/defense/pandemic_influenza.htm.

Or, navigate to it from the Chamber's web site, where you will notice other links to practical information:
<http://www.uschamber.com/>.

To this advice, I add emphasis that soap and water, and hand sanitizers, are serious medicine! Good hygiene is not only endorsed by your grandmother, but is also Occ Doc in a Box-approved to lower not just the individual risk of flu, but especially the risk of spread throughout the work organization.
